

**Help Us Save the World!**

Now you can do your part to reduce paper waste, reduce deforestation, and generally protect the environment. We can fully digitize your monthly statements and policy requests, meaning you never have to see a shred of paper from us again. If going paperless is of interest to you, please call your customer service agent and tell us of your choice.

At Clinard Insurance, we are dedicated to doing our part to make our world a happier, healthier, and cleaner place. All of the paper that we use in the course of our business is shredded and recycled.

But hey, don't worry, our bathrooms are not paperless.....
