

Special Insurance Program for Catering Companies In North Carolina & South Carolina

We created this special niche catering insurance program to address the unique concerns of the Catering Entrepreneur. We've built this program for all caterers, large or small.

This program can be written as a stand alone system for the company that is 100% catering and that's all they do or we can add this program as a "plug n play" module that creates seamless coverage for the Restaurant Entrepreneur that does catering as a sideline part of their business.

We've scoured the insurance marketplace and found the best companies to handle those "idiosyncrasies" that are unique to caterers. Here are just a few of the questions that you should be asking yourself.

- Am I properly covered for the #1 risk to my livelihood?
- What happens if someone alleges food poisoning from my products?
- Do I have the right coverage if something happens on the way to the catered event?
- What is my current agent doing to help me grow my business?

That last question addresses our "Crown Jewel"...and our #2 passion in line right after making sure that you are properly protected. We want our clients to have a real edge over their competition. We want to not only protect your business, but to also help you GROW it. We have a virtual Treasure Trove of ideas that we can't wait to share with you to help you grow your business.

Our program has limited capacity and is extremely price competitive which allows us to deal with the "cream of the crop" of catering entrepreneurs. If you feel you belong in this group, please contact us right away to see if you qualify. We will do business with you the way that suits you best, by phone, fax, email, or in person. Call us or complete the form at the top of the page to get started today.

As always we do business your way...e-mail, call, fax or face to face...the choice is yours. You can start putting our experience to work for you today, just call us, toll free, at 877-687-7557.
