

**This is a FREE service exclusively for Clinard Insurance Group clients.**

When you purchase big ticket items, you might want to keep a copy of the receipt in a safe place away from your home. This way, if your home were to be lost to a fire, you would still have access to these receipts. This is a perfect time to utilize our scan and save service. You can mail us the original, or a copy of the receipt and we will scan it and attach it to our client computer file for you. Then if you need the receipt later, we can print a copy of it for you at any time. We can also do this for jewelry appraisals or appraisals of fine arts or antiques. If you suffer a fire loss at your home, you will be able to rest easy knowing that we have a copy of your receipts and appraisals on file.
