

What Would You Do With An Extra \$343 In Your Pocket?

Sunday, 03 May 2009 10:31

Our research indicates that on average we save our new clients \$343 on each policy that that bring to us when they switch from their current insurance company. We specialize in helping people with

their home insurance

and their

car insurance

of course, but we also help

small contractors

and

small businesses

with their

general liability

and

workers compensation insurance

as well as helping

automotive repair shops

and

used car dealers

with their

garage insurance

.

So we got to thinking.

What will all

of these clients of our do with the \$343 that they each saved?

Here are a few ideas. Let's say you are a gadget person. You could get yourself a new iphone and still have about \$40 left over for dinner.

Of course you would use one of those tricky new iphone apps to pick out the restaurant you want to visit.

Already have an iphone?

Well besides oozing with cachet, you could now purchase about 150 or so cool apps for your phone.

Not into electronic gadgets? I know, you can visit your nearby retail clothing store and pick out 4 or 5 tops and 4 or 5 cool pants or skirts to go with them. And still have a little money in your pocket to share with those pesky teenagers of yours.

Are you a golfer? Well if so, you could purchase 11 dozen Calloway golf balls with your personal name engraved on each one. I'm a terrible golfer and lose balls on every outing but that would last someone like me a couple of years!

And hey, if you do play golf, don't forget to up your liability on [your homeowners policy](#) in case one of those golf balls hits someone as it careens out of bounds.
